

WHY US

The Travel Designer is bold enough to offer what has otherwise become an unintelligible phrase: The journey of a lifetime.

The Travel Designer aims to provide its clients with only the best travel experience through and within the Nordic region. From the initial request to the completion of the trip, our clients receive personal and private support from a dedicated Travel Designer. This way, no details are overlooked, and our clients can simply enjoy and marvel at some of the most impressive natural phenomenon and culturally-bound experiences the Nordic region has to offer.

We conduct personal visits not only to the destinations but we also test all the activities to ensure that our clients only experience the best from our local service providers. We work very closely with our suppliers, so much so that we have tailored tours and activities with them that are exclusive only to us.

Before our clients travel, we prepare and send extensive travel packages that include maps, guide booklets, travel tips, destination information, driving directions and GPS coordinates for self-drives, and more.

We provide our clients with 24/7 assistance should there be anything they may need during their travels – be it restaurant reservations, misplaced train tickets, travel assistance or absolute emergencies; and we always aim to get in touch with our clients during their stay. If their itineraries include a stop in Bergen, we personally meet our clients and spend time with them to discuss their itinerary and answer any questions they may have about their trip. Upon request, we will also travel with them as their personal host.

Behind the scenes, we aim to keep in regular contact with our suppliers to find out how everything is going during our clients' travels.

And it is for these reasons that we do not have fixed prices, since each and every journey that we craft is tailor-made just for you.
